nextlevel IRA™

The Customized Investment Portfolio To Meet Your Income Needs Through Retirement

Transferring an employer sponsored retirement account to a traditional Individual Retirement Account (IRA) doesn't have to be a difficult, time-consuming endeavor. Welcome to **NextLevel IRA**, the traditional IRA solution from PenChecks Trust® that provides an efficient, seamless transition from an employer retirement plan to a customized IRA account tailored to your retirement income goals.

NextLevel IRA's automated platform makes it simple to transfer your funds to an IRA with **Invest4U™** personalized investment strategies, to help build a solid foundation for your future. Opening an account is a simple process that avoids the complexities that typically accompany institutional investment service providers.

Why Choose NextLevel IRA

With NextLevel IRA, you can select and manage your investments yourself or choose to use the **Invest4U™** service. **Invest4U™** leverages industry leading technology to select, manage, and rebalance your investments based on your goals, individual data, and demographics. NextLevel IRA puts you on a personalized path built around your retirement income goals.

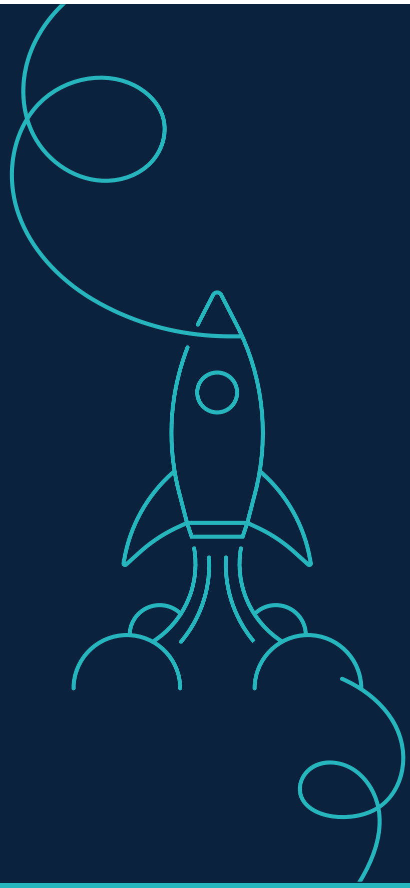
Benefits of NextLevel IRA

- Option to elect Invest4U™ service, where a **personalized investment strategy** selects and manages your investments based on your income needs through retirement.
- NextLevel IRA's user-friendly, intuitive and robust dashboard helps you **gain confidenc**e in your investment decisions.
- Automated quarterly rebalancing **tailored to your individual goals**, eliminating the need for self-management and ongoing allocation adjustments.
- Your account is benchmarked against YOUR retirement savings goals instead of an index.
- Earn **financial benefits** from tax-deferred growth.
- NextLevel IRA includes a wide range of investment choices, on-demand reporting, and a personalized client experience.
- We help you focus not just on your current balance, but how much money you want to have or need to have when you retire.
- We provide tips to help you achieve your retirement goals and **help keep you on track** to meet your income needs.

What Is Invest4U™

Invest4U™ is a tailored, goals-based approach that offers account holders a personalized investment strategy based on their unique retirement goals. PenChecks Trust has partnered with iJoin, a nationwide provider of investment technology solutions for the retirement savings industry, to deliver offer account holders a **personalized investment strategy** that executes automatic quarterly updates and initiates trades on behalf of the investor.

As the account holder, you can take advantage of this service upon account setup, or you can elect to set it up later by logging in to make the election to utilize these services.



Advantages of Invest4U™

- Access to institutional funds that are professionally managed with lower fees than retail funds.
- Gain access to a diverse set of investment options, monitor performance, and help maximize asset growth with NextLevel IRA's intuitive online dashboard.
- Your investments automatically rebalance quarterly. Craft your personal plan and adapt as your goals evolve.

nextlevel IRA™

Stay Connected To Your Retirement Strategy

Start planning now to achieve a comfortable income during your retirement. A **NextLevel IRA** account with optional **Invest4U™** service puts you on a personalized path built on data, individual demographics, and retirement goals so your investments reflect your unique situation and needs.
